

INSTRUCTION MANUAL

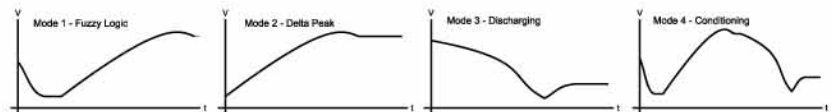

INDI 16X-Pro™

16-Bit Microprocessor Charger with 110V AC-DC Switching Power Supply

One Button Operation with Fuzzy Logic Program
INDI Multitasking Full Charge Detection Algorithm
Minus Delta Voltage Full Charge Termination Method
Dual Peak Slope Full Charge Termination Method
Pulse Count 16-Bit Analog to Digital Converter
65536 Steps Ultra High Resolution Counter
4 Amp Conditioning Discharging Current
0.5-6.5 Amps Adjustable Charging Current
Display: Voltage, Current & Capacity
Auto Detect Smart Lockout Timer
16-Bit Digital Signal Processing

**Maximize Battery Capacity & Power Output:
4 User Selectable Charging & Discharging Profiles**

MICROPROCESSOR BASED 16-BIT DIGITAL CHARGER
