

STEP1, Use a small tool to pull the black cover

STEP2, Remove the black cover

STEP3, Remove the 2 silver springs

STEP4, Remove the original plastic level unit

STEP5, Remove the blue foam from the glass level unit
****BE EXTRA CAREFUL HANDING THE GLASS UNIT****

STEP6, Apply shoe glue to both ends of the glass unit

STEP7, Apply extra shoe glue in this area

STEP8, Drop in the glass unit, make sure it's centered and wait for the shoe glue to dry, then apply a small amount of shoe glue to the edges of the black cover. Close the black cover and the installation is completed..
