

# **PARTS FOR 10L30 AND 10L40 KITS**

Use these exploded drawings to find the part number.  
Then look up its number in the catalog portion on the reverse for details.

An asterisk (\*) next to a number indicates that a  option is available. See the **Factory Team** section for details.

Indicates part for 10L3 Oval only: L30 8303

All other parts are for both kits unless otherwise noted.
